

# Whole chicken sizing change

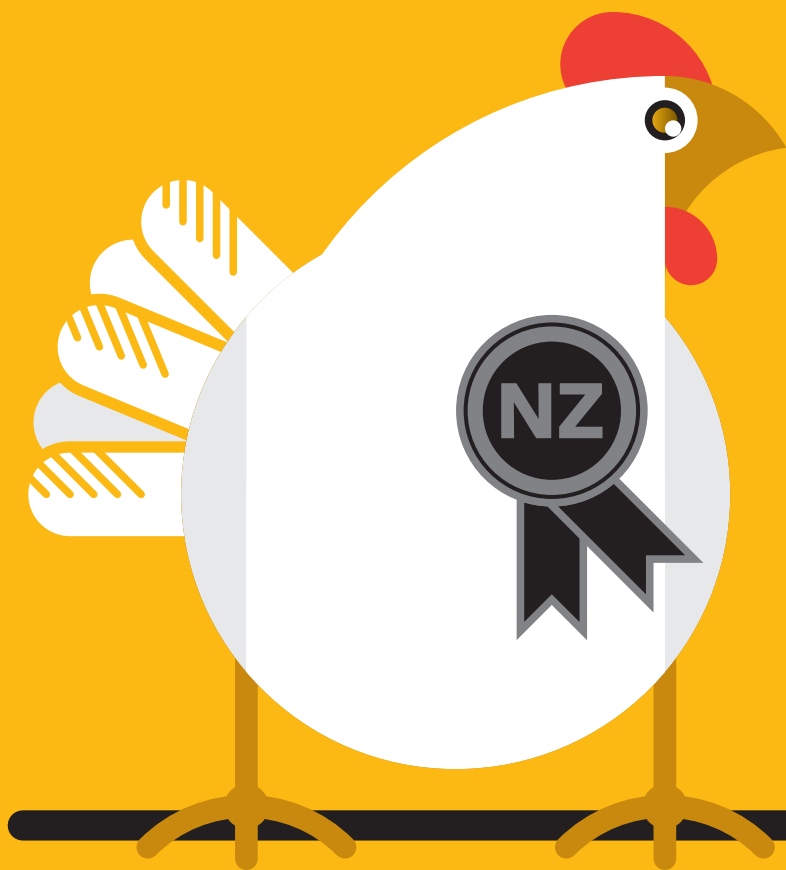

Chicken size numbers are being replaced by minimum weights.

Over the next few months, the sizing system for whole fresh and frozen chickens sold in New Zealand will change.

Instead of the current size numbers (12, 14, 16 etc.), whole fresh and frozen chickens and stuffed and marinated chickens will be sold by minimum weight. This will allow chicken to be sold on the same basis as other meats.

The good news is that nothing else has changed. You still get the same amount of chicken as always.

New Size (Minimum weight)	Old Size
0.95kg	Size 10 (0.95kg)
1.05kg	Size 11 (1.05kg)
1.15kg	Size 12 (1.15kg)
1.25kg	Size 13 (1.25kg)
1.35kg	Size 14 (1.35kg)
1.5kg	Size 16 (1.5kg)
1.7kg	Size 18 (1.7kg)
1.9kg	Size 20 (1.9kg)
